

Corrugated Boxes

Our roots are showing.

CaroCon grew out of an extraordinary brown box company named Carolina Container.

Since 1928, Carolina Container has been delighting customers with quality corrugated containers and excellent customer service. Today, their legacy of excellence continues by continuing to offer the same stock or custom-made cartons that made them famous.

With its large shipping and logistical network and complete in-house development capabilities, our parent company can take care of any business' corrugated needs.

X-Press Boxes: Stock cartons that are ready to move.

We keep a variety of containers in stock for customers who need a lot of boxes – and need them fast. Our stock cartons come in more than 70 sizes to fit everything from sunglasses to snowmobiles.

Stock cartons are made of the same high-quality corrugated, kraft, white, or printed material as on-demand packaging. But because they're ready to go and bundled in sets of 100 to 2000, they're priced competitively and available for immediate shipment.
